Ted Harvey Announces Campaign for Colorado's 4th Congressional District

Highlands Ranch, Colorado: Tonight, former Republican State Representative, State Senator, and national conservative leader Ted Harvey announced his campaign for the U.S. House of Representatives to represent Colorado's 4th District.

The announcement was made in Douglas County at a meeting of the grassroots activist group Parker Conservatives. Drawing on his years of experience as a small businessman, charter school board member, state legislator, and national Chairman of the Committee to Defeat the President PAC, Harvey declared, "With the devastating moral and economic decay in our government, and with no proven, or experienced conservative fighter willing to run for this critical seat, I'm running to make sure "We the People" have a leader who will fight for us and stop the corrupted establishment insiders in both parties who are hell bent on destroying our Republic."

"As a Christian saved by grace through faith in Jesus, I know full well that genuine biblical leadership is about serving others above myself while also protecting the God-given rights of every person as guaranteed in our US Constitution," added Harvey.

"Our problem is that Biden and the House Democrats are out-of-control in their delusional twisting of our God-given rights while trying to gaslighting Americans about our constitutional guarantees. No more!", said Senator Harvey.

"Unfortunately, we have too many Republican politicians who talk a good game during the primary, but they have never been tested in the legislative crucible. They have never had to look leadership in the eye and say no. They have never fought the liberal media. They have never stepped foot on the real battlefield for conservative values and fought to take our government back.

Like Trump, I have the battle scars and a proven conservative record to prove to the voters of CD 4 that they will never have to question if I will keep fighting for their conservative, limited-government values and against the corruption in BOTH parties. I have never succumbed to the pressure of party leadership in the defense of liberty, nor have I ever sold-out to wealthy establishment insiders. Voters can rest assured, I never will."
